

Looking for the Future for o community development services.

Microfinance Project

Looking for the future with its partners began the activities of implementation of a microfinance Nyambutsa, which will serve in support and support of the activities of the association members which in the first place are the shareholders of the Microfinance..

Agro-Business Domain

Looking for the Future supports 50 associations of 1500 farmers and herders composed of young and adults, educated and non-educated. These associations are grouped in two large groups (NANU AND PAJDC) Among these associations are associations that grow cereals and other crops. As an example AJAD Association Specializing in the cultivation of watermelons, others make chanks and still others make soap.
